### **President's Report**

On my holiday down south this year I got a flight in a B-24 Liberator, making it the third heavy bomber I have had flights in, I have previously flown in a Lancaster and a B-17. I wish there was an air worthy Halifax, but there are only static displays, at this time. I also took a tour of the Concord, it is an amazing plane. I would have had a flight in one at Oshkosh, but my accident prevented it.

I am hoping our club will make an effort to be more visible in the zone this year, it may help us get more visitors to our field and Funflies.

I would like a proposal to limit flying on or over the runway to landings, take offs, touch and gos, slow fly-bys and overshoots.

### **Field Report**

The new route into the field is a better road all year round. Other than one particular area we had fewer snow drifts and it is easier to maintain. This year the roadway will be improved by trimming some trees and building it with sand.

### **Flight Training Report**

No report.
