Treasurer's Report

Bank and Cash Balance: \$xxx.xx
Moved by Stefan, seconded by Scott---Passed

President's Report

Welcome to our new meeting place. to nite we will decide if this is to be permanent. It fits in perfectly with our model club, and the airport wishes to have us at their facility.

I will not be standing for re-election (consider this my resignation as of the election date). 5 years is enough.

We will need to fill the vacancy of president and secretary at election time. we will also need a new chief flying instructor and safety officer.

Part of being a club member involves participating in the operations of the club, which include volunteering for positions that come up that need to be filled. Members have a responsibility to the club to help with the day to day function and management of it. If members do not step up, there can be no organization, and therefore no club.

If you see a new member flying at the field suggest he do his wings qualifications test. Rob, Brad or I have the paperwork, so get in touch with us.

Our fun fly on July 30, 2011 was a very successful flying day, and thanks to all those who helped Bob Howard to make it a fun event.

New Business

We have decided to use the airport for our meetings and we will fly there once a month. Tom has Jason Watts lined up to talk to the club about batteries at our next meeting on October 5, 2011.

Discussion:

Tom mentioned that we have 4 or 5 new members who are ready for testing and that they need to be contacted to arrange a time for testing.

Next Meeting:

October 5, 2011 at 7:00 pm. at the Airport Lounge

Meeting Adjourned:

At 8:45
