

May 7th, 2014

**President:** Bob Howard **Treasurer:** Elaine Schenk **Secretary:** Bob Graham  
**Chief Flying Instructor:** Brian Cheadle **Field Operations:** Tom Savage

**Call to order** 19:05, Pembroke Airport

**Attendees:** Yvonne Adam, Brian Cheadle, Bob Graham, Bob Howard, Ross MacEwan, Chris Ramey, Alenko Sakanovic, Tom Savage, Bill Schermerhorn.

**March's Minutes Approved,** Tom Savage / Brian Cheadle

**Financial report Approved** Brian Cheadle / Bill Schermerhorn  
As of April 30th there were 12 (2 honorary + 10 paid) club members.

**President's Report,** Bob Howard

No report this month.

**Field Report,** Tom Savage

Tom reported that some kids set fire to our spare shed on May 5<sup>th</sup>. The shed was destroyed, however no damage done to the main building.

Our field cleanup is scheduled for **Sunday May 12<sup>th</sup> at 10:00**, weather permitting. All members are invited to come out and help. If you have shovels or other tools which would help completing the tasks below please them along.

Some of the items we will be attending to are:

- Clean up burned shed
- Pick up trash from field and ditch on TV tower Rd.
- Install new post for Club Sign
- Tidy up inside of Club shack
- Fill in runway rut and roll runway
- Repair Outhouse

**Flying Instruction,** Brian Cheadle

Brian will be arranging a Saturday morning introduction, gear requirements and equipment checkout for people interested in taking training. It looks like 3 people are interested at this point. Training will be loosely based on the "One Week to Solo" program. Brian has copies of

the guide available for purchase. Brian and the trainees will establish an agreed means to communicate such as email or text.

### **Discussions of Interest**

Bob Graham brought in a Multicopter and discussed the components required and the build process. The model presented was a DJI F-550, with a Naza MV2 controller and Aeroxworks landing gear. The various flight modes, model orientation and recovery systems were explained. Although flyable in it's current configuration, Bob said that a FPV camera system is being assembled and will be installed in the near future.

### **Next Meeting.**

The next meeting will be June 4th, 2014.

The meeting was adjourned at 20:30
